
Director of Legislative Affairs (DoLA)

Just to provide an update. I have one application and am expecting another one soon. Applications will be accepted until 9/19/09.

Meeting with President Floyd

I spoke with President Floyd for about 15 minutes. I had heard he was very student oriented and I do believe they were right. He listened to me talk about the loss of the learning centers and understood the loss of proctoring and the connectivity to the school. He stated he hadn't heard some of my points and was glad to be hearing them at this time.

Meeting with Provost Bayly

This was a successful meeting in that I spent about 45 minutes with him. He was easy to talk to and listened. He actually tried to describe how things work and why the decision was made to cut the LCs. I reiterated my concern that there could be future changes at DDP and with the advisors but he reassured me that things would be the same.

Last December, I tried to get Provost Bayly to speak at our December graduation but he could not. Since this meeting went well, I am trying again to see if we can get him to speak on December 11th. Keep your fingers crossed!

S&A Fee Committee

Christina and I are working to get a supplemental S&A fee allocation set up so that we can address the fees allocated to the Learning Centers that are now closed and the need for Bobbi Thomas to find ways to fill in the gap. This will require new meetings and a public hearing. We will be able to use the same committee but must reappoint them for this school year. The senate will need to approve Stephanie Norton and Cherie Payne, the two, non-ASWSU-DDP, student members.
